

# Save the Date

## 4<sup>th</sup> Czech-Israeli Innovation Day on Smart Health 2024

„United in Innovations and Businesses, in both good and challenging times“

Date: Tuesday, November 19, 2024

Time: 09:00 – 17:00

Venue: Prague

The series of conferences initiated by Moravian Business College Olomouc is being held in Prague for the first time.

Join us to learn how Israel can inspire the Czech health sector in the field of management, education and innovation to support specific projects of Czech-Israeli cooperation.

The program will bring interesting ideas for the management of hospitals, health insurance companies, entrepreneurs, state and public administration, experts from medical faculties and the research sector.

Participate in an exceptional conference with top experts from the Czech Republic and Israel.

Register for the conference [HERE](#)

Israel is among the world leaders in the transfer and commercialization of research results into innovations in the healthcare sector. There are 1,600 companies operating in a country comparable to the Czech Republic, most of which are startups. Our goal is to open opportunities for cooperation between the Czech Republic and Israel.
